

COLD WATER PRESSURE WASHER

WASH CANNON

FOR HIGH VOLUME, LOW PRESSURE CLEANING

PERFECT FOR CLEANING

- Construction Equipment
- Mining Equipment
- Quarry Equipment
- Earth Moving Equipment
- Farm Equipment
- Military Vehicles
- Aircraft Rinse Down

WHY CHOOSE ALKOTA

There is no reason that machines need to be complicated to do their job.

Our team of engineers and product developers have been designing, building and improving high pressure cleaning systems since 1964. When you buy an **Alkota** pressure washer, you're buying quality and longevity. It is an investment in the future of your business.

At **Alkota** we believe that simplicity means quality.

Being American owned our machines are built with high quality materials the old-fashioned way, by hand. We design and assemble them right here in the heart of the **USA**, so that you know you're getting an American-built machine.

WASH CANNON SPECIFICATION CHART

| MODEL | 25500 | 25750 | 25755 | 2110 |
|------------|--------------------|--------------------|----------------------------|--------------------|
| Capacity | 25 GPM | 25 GPM | 25 GPM | 21 GPM |
| Pressure | 500 PSI | 700 PSI | 700 PSI | 1000 PSI |
| Motor | 10 HP, 230 V, 3 PH | 15 HP, 230 V, 3 PH | GX630 Honda Electric Start | 15 HP, 230 V, 3 PH |
| Pump | Diaphragm | Diaphragm | Diaphragm | Plunger |
| Hose | 3/4" x 100' | 3/4" x 100' | 3/4" x 100' | 3/4" x 100' |
| Wand | Trigger | Trigger | Trigger | Trigger |
| Drive | Belt | Belt | Belt | Belt |
| Dimensions | 42"x 32"x 32" | 42"x 32"x 32" | 42"x 32"x 32" | 42"x 32"x 32" |
| Weight | 720 lbs | 740 lbs | 770 lbs | 750 lbs |

Blast Away, Mud and Dirt with Recirculated Water.

The **Alkota Wash Cannon** delivers high volumes of water at low pressure. The **Wash Cannon** is the perfect solution for quickly removing heavy mud and debris from vehicles and equipment. Available with water flow rates up to 25 GP, and pressures up to 725 PSI. These systems make quick work of equipment cleaning.

Ideal for heavy equipment de-mucking, construction equipment, mining equipment, quarry equipment, aircraft, or anything requiring high volume, low pressure flow. The diaphragm pumps are belt driven for quiet operation and will handle solids up to 3/32" in size. This allows for recirculating water. Used as a first stage in the cleaning process, the wash cannon removes mud and dirt so a hot pressure washer can be used to melt and remove grease. Suction line hose not included.

Standard Features

- Stationary Construction
- High quality diaphragm pump
- Belt driven design reduces vibration while slow RPM increases pump longevity
- Capable of drawing clean or grey water directly from sump, pit or tank
- Bypass internally back to water source all other models
- Internal Bypass (2110 only)
- Trigger control gun with hose and variable fan nozzle to control impact
- Low water safety shutoff

Available Options

- 460 V 3Ø
- 50 Hertz Voltage
- Remote
- Autoshut Down (2110 only)

FOR BETTER CLEANING

Clean Better with **Alkota Biodegradable** detergents specially formulated for high pressure cleaning.

All Pressure washer detergents are blended with Scal Trol to reduce scale buildup in the heating coil, pump and fittings. This improves equipment performance and minimizes replacement and repair cost.
