WHY CHOOSE ALKOTA

There is no reason that machines need to be complicated to do their job.

Our team of engineers and product developers have been designing, building and improving high pressure cleaning systems since 1964. When you buy an Alkota pressure washer, you're buying quality and longevity. It is an investment in the future of your business.

At Alkota we believe that simplicity means quality.

Being American owned our machines are built with high quality materials the old-fashioned way, by hand. We design and assemble them right here in the heart of the USA, so that you know you're getting an American-built machine.
