HOT WATER SERIES 4301/NG LP

230V/1PH 8 HP Electric Driven Belt Drive Pump / Natural Gas or LP Fired
4 GPM at 3,000 PSI
Stationary Install

Schedule 80 18" Coil

Efficient Gas Fired Burner
for Up to 210° F

Cool-Touch Wrapper

Belt Drive TSS1511 Pump

Temperature Control

Easy Access Stainless
Steel Float Tank

Hour Meter

Electronic Ignition Burner

Certified: UL60335-1 and UL60335-2-79
/ CSA C22.2 #60335-1 and
CSA E60335-2-79

The **4301D** has been a go-to machine for users seeking a stationary hot water pressure washing solution. With a recent redesign in 2025, it is now the best it's ever been, with easy-to-access components and pre-wired for remote additions. On top of that, you can have peace of mind knowing the **4301D** is UL and CSA certified for safe operation. This American-made unit is ready to serve with year-round hot water on demand.

INCLUDES

Trigger, Gun, & Wand
15, 25, & 40 Nozzles
50 ft. Hose

ACCESSORIES

Remote
Hose Reel
